

Our association room „eingefädelt“ in Judenburg, Burggasse 9 is neither a shop nor a factory.

This room is open for :
people who like to be creative
(sewing, needle working, painting.....)

people who like to spend time with other ones
(possibility für conversation, playing games...)

people who are interested in learning and practising the German language (several trainings are offered)

parents and their children are also welcome (support with homework, possibility to be creative)

people who would like to expand and practise their IT-knowledge
(basics in the common programmes...)

Materials and equipment are provided, but feel also free to bring something with you.

We are an association supported by several people, companies and organizations.

Collaboration is on a voluntary basis and of general benefit.

In our room parents are responsible for their children.
